

Piccolo

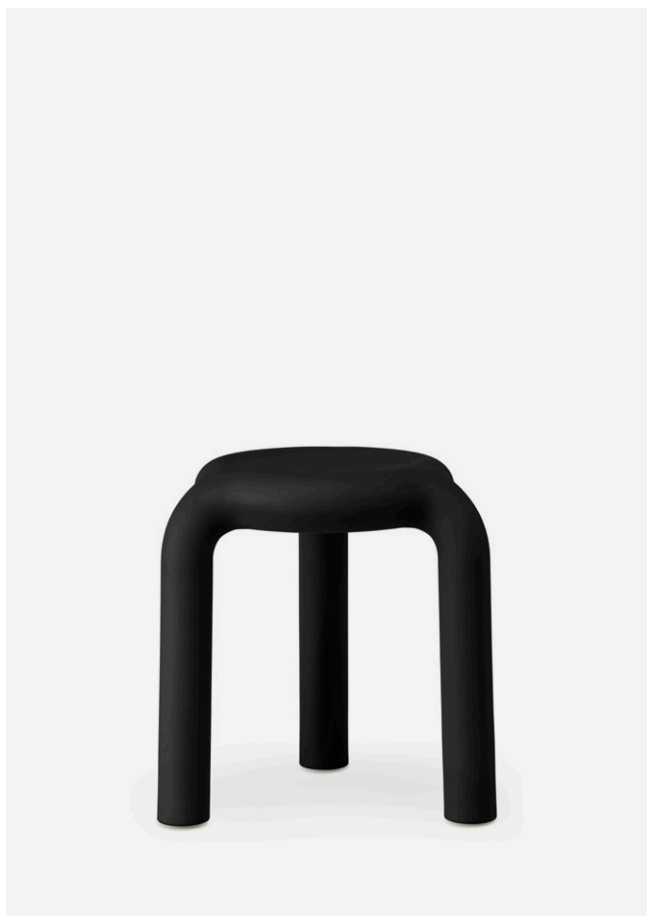

Piccolo

Design Florent Coirier

Materials Polypropylene

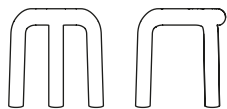

A stool that combines exaggerated proportions with minimalist design. Crafted from lightweight polypropylene, Piccolo surprises with its substantial yet technically minimal construction. Despite its appearance, the object is hollowed out in the structure, ensuring a playful and airy feel and bringing a fresh and charming approach to furniture, marrying style with practicality. Piccolo's versatile

shape serves a dual purpose as both a stool and a side table, making it ideal for various settings and applications. Its design facilitates convenient stacking, enabling optimal space utilization without limitations. Adaptable for both indoor and outdoor use, the Piccolo Collection smoothly transitions between environments, offering stylish comfort wherever it's placed.
